DIRECTORS' REPORT For the half-year ended 31 December 2016

The Directors present their report together with the consolidated interim financial report of the consolidated entity, being the Company and its controlled entities, for the half-year ended 31 December 2016 ("half-year") and the auditor's independent review report thereon.

1. Directors

The Directors of the Company at any time during or since the end of the half-year are:

| Name Mr G.J. McMahon | Non-Executive Chairman | Period of Directorship Appointed 23 April 2013 as a Non-Executive Director and Non-Executive Chairman as of |
|--|--|--|
| Mr A.G. Dew Mr C.C. Procter Mr B. Montgomery | Non-Executive Director Non-Executive Director Non-Executive Director | 6 June 2013 Appointed 2 December 2011 Appointed 9 December 2011 Appointed 6 February 2013 |

2. Results

The consolidated entity had a total comprehensive loss for the period ended 31 December 2016 of \$3.318 million (HY 2015: Profit \$15.041 million). At that date the Company held cash and cash equivalents of \$5.711 million (FY 2016: \$9.180 million) and in addition held 750,000 Northern Star Resources Limited shares at \$3.62 per share (equating to \$2.715 million at that date).

3. Nature of Operations and Principal Activities

The Company is a no liability company and is domiciled and incorporated in Australia. The principal activity of the Consolidated Entity during the course of the financial half-year was gold exploration. The Company's exploration centres are situated in the Tanami Desert straddling the Western Australian and Northern Territory border. The Company's main undertaking, the Central Tanami Project ("CTP") in the Northern Territory is located adjacent to the Tanami Track and approximately 90 kilometres east of Coyote.

4. Corporate and Financial Overview

Joint Venture with Northern Star Resources Limited

As previously announced, the Company and Northern Star Resources Limited ("NST") have formed an unincorporated joint venture ("JV") to advance the Company's CTP.

In accordance with the JV, management of the exploration activities at the Company's CTP have been handed over to NST who will sole fund all JV expenditure including all CTP exploration and evaluation costs, assessment and development costs, mining of the JV tenements and refurbishing the CTP process plant and associated infrastructure, during the Sole Funding Period.

The Sole Funding Period will expire on the date on which the process plant at the CTP has been refurbished to operating condition and has operated for a continuous 30 day period or has produced 5,000 ounces of gold ore (whichever occurs first). On the expiry of the Sole Funding Period, NST will have earned a further 35% undivided interest in the CTP (taking NST's total JV Interest to 60%).

Sale of NST Shares

During the half year ended 31 December 2016, the Company sold 250,000 shares at a weighted average price of \$5.53 per share to receive approximately \$1.37 million net of transaction costs.

At 31 December 2016, the Company had 750,000 shares in NST remaining.

Coyote Plant Agreement with ABM Resources NL

On 14 July 2016, the Coyote Plant Agreement with ABM Resources NL Initial Lease Term expired and on that date, the management and maintenance of Coyote was handed back to the Company. The Company intends to continue with care and maintenance activities for the foreseeable future.

Litigation with Metals X Limited

On 23 September 2016, the Company announced that it had reached agreement with Metals X Limited ("MLX") that ends the legal proceedings (the "Proceedings") between the parties. The terms of the settlement were:

- (a) each party provides and receives a full discharge and release from any and all claims in respect of, or arising out of or in connection with the subject matter of the Proceedings;
- (b) each party will no longer pursue its claims against the other;
- (c) the Proceedings will be dismissed on a no admission of liability basis; each party will bear its own legal costs; and
- (d) the Company will (jointly and severally with Tanami (NT) Pty Ltd) make payment to MLX of \$3,000,000.

In reaching this settlement with MLX, the Company has taken into account its legal advice together with the significant costs and inherent uncertainty of litigation, and the substantial time commitments and distraction that the litigation presents for the board and management.

5. Exploration Activities Overview

Central Tanami Project (75% Tanami)

In accordance with the JV which commenced on 3 August 2015, management of the exploration activities at the Company's CTP was assumed by NST who will sole fund all JV expenditure including CTP exploration and evaluation costs. The Company has continued to provide input into exploration targeting although NST, as Manager of JV activities, has responsibility to plan and implement ongoing exploration activities and ensure annual exploration commitments are met.

Worked completed by NST during the half-year consisted of:

- Ongoing evaluation of the mineral resource potential within the CTP Mining Leases to identify extensions to existing mining areas and new exploration targets;
- Compiling and remapping surface regolith of the CTP mine corridor including the commencement of a Depth of Cover study in conjunction with external consultants;
- Commencement of a regional tectono-stratigraphic study which includes detailed geological remapping of the CTP mine corridor/Groundrush domains with extensive use of multi-element geochemical analysis;
- Planning of regional and infill geochemical sampling programs;
- Design of first pass and infill regional aeromagnetic/radiometric geophysical surveys; and
- Undertaking of an extensive environmental rehabilitation program within the existing CTP mining leases (legacy drilling and infrastructure sites).

Commencement of planned drilling programs within the CTP mining leases is pending completion of statutory approvals. CTP mine corridor and regional MMP's have been lodged and are under discussion with DIPR representatives.

DIRECTORS' REPORT For the half-year ended 31 December 2016

Western Tanami (100% Tanami)

During the half-year, the Company completed a 3,591 metre aircore (53 holes) and a 3,252 metre reverse circulation (33 holes) drilling programme over targets defined by geological and geochemical mapping using portable XRF (pXRF) surveys of termite mounds. Results are encouraging with best results shown in Table 1.

Following the successful identification of the Rabid South and Nugget Patch prospects by geological and geochemical mapping using portable XRF (pXRF) surveys of termite mounds, the regional programme has continued using similar techniques with the intention to identify areas of hydrothermal alteration along structural discontinuities, such as regional splays of the Trans Tanami Fault system. The extent of the pXRF surveys are shown on Figure 1.

Independent auditor's review report to the members of Tanami Gold NL

We have reviewed the accompanying interim financial report of Tanami Gold NL, which comprises the condensed consolidated interim statement of financial position as at 31 December 2016, condensed consolidated interim statement of profit or loss and other comprehensive income, condensed consolidated interim statement of changes in equity and condensed consolidated interim statement of changes in equity and condensed consolidated interim statement of changes in equity and condensed consolidated interim statement of cash flows for the interim period ended on that date, notes 1 to 11 comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the Group comprising the company and the entities it controlled at the half-year's end or from time to time during the interim period.

Responsibility of the Directors for the interim financial report

The directors of the company are responsible for the preparation of the interim financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the interim financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the interim financial report

Our responsibility is to express a conclusion on the interim financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity,* in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the interim financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 31 December 2016 and its performance for the interim period ended on that date; and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations 2001*. As auditor of Tanami Gold NL, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the interim financial report of Tanami Gold NL is not in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2016 and of its performance for the interim period ended on that date; and
- (b) complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
