### Contract Awards and Business Update

Tempo Australia Limited (ASX: TPP) has been awarded approximately \$1.5 million in new contracts in the Pilbara region of Western Australia in recent weeks.

Awards include:

- a service agreement with McConnell Dowell for installation of Portal Lathes at BHP Billiton's Ore Car Repair Shop near Port Hedland;
- project works at Citic Pacific's Sino Iron project at Cape Preston; and
- project works for Civmec at Rio Tinto's Nammuldi mine near Tom Price.

Tempo's Chairman, Carmelo Bontempo, said: "Tempo's ongoing focus on quality delivery, people and productivity is enabling the company to secure new works. Today's announcement illustrates that we're strengthening existing relationships while engaging new clients."

Tempo's continuing work at Rio Tinto's Cape Lambert Port Expansion project, as announced on July 8, is progressing well, with an anticipated peak workforce in coming weeks expected to reach up to 90 people on site across various projects and shutdowns.

In addition to the contract awards, Tempo has also successfully completed the Achilles oil and gas standard Australia FPS audit which serves as a pre-qualification for many oil & gas clients, including Santos, QGC, Clough and Senex. The audit reviewed Tempo's systems and processes relating to health, safety, environment, quality, community and sustainability.

Meanwhile, the company has entered into national labour hire agreements with prominent businesses, Laing O'Rourke and First Quantum Minerals Ltd, creating greater efficiency for these clients when seeking access to Tempo's pool of quality, work-ready technicians and tradespeople.
