

## Requisition for additional personnel at Gorgon Project

### **Tempo personnel onsite at the Gorgon Project expected to reach approximately 380 by 2015 year-end**

Mining and energy sector services company, Tempo Australia Limited (ASX: TPP) is pleased to announce that it has secured a requisition for additional Tempo personnel to be provided onsite under its sub-contract at the Chevron-operated Gorgon LNG Project, on Barrow Island in Western Australia.

This new requisition increases the expected number of Tempo personnel onsite at the Gorgon Project to approximately 380 – around 90% Structural, Mechanical and Piping (SMP) trades people and the remainder Electrical & Instrumentation (E&I) trades people. Tempo is expecting to have mobilised all personnel by December 2015.

Tempo has a contract to provide SMP and E&I craft labour for construction, pre-commissioning and commissioning services to the Mechanical, Electrical and Instrumentation contractor on the Gorgon Project.

The contract has grown significantly since its award in May 2015 (ASX announcement 6 May 2015), with Tempo-supplied personnel onsite increasing from the initial request of around 100, referenced when the contract was granted, to now exceeding 380.

Tempo Australia Executive Chairman Carmelo Bontempo said:

“We continue to be delighted by the positive contribution our people are making to the Gorgon Project, and are pleased to be able to provide additional skilled people and resources to the Mechanical, Electrical and Instrumentation contractor. We look forward to continuing to deliver positive results via our work at the project moving forward.”
