18 January 2016

Tempo secures approximately \$65m in contract extensions for 2016

Mining and energy sector services company Tempo Australia Limited (ASX: TPP) is pleased to announce that it has been awarded contract extensions for 2016 worth approximately \$65 million for the provision of construction, pre-commissioning and commissioning support services.

The contract extensions are with two existing major blue chip clients in the oil and gas, and resources sectors.

The contracted work scopes, to be executed as part of these extensions, include procurement support, development of construction work packs, construction planning, multidisciplinary field execution and commissioning support.

Tempo Chairman Carmelo Bontempo said:

“We are delighted to be awarded these contract extensions and to be involved in what are very significant projects, which extend our valued relationships with key resources and energy clients. The extensions are the result of the ongoing focus and commitment of our people on site and are a further testament, in such a tough economic environment, to Tempo’s ability to differentiate its service offering – based on its drive to maximise productivity and tool time. We will continue to work collaboratively with all of our clients with the aim of expanding and constantly improving our services.”
