

# THUNDELARRA

ASX/Media Announcement

14 April 2015

## RED BORE CONCEPTUAL MODEL

Thundelarra is pleased to advise that it has released a video message from the CEO. The video gives a brief explanation of the current exploration rationale and conceptual geological model for the high grade copper-gold-silver mineralisation targeted at Red Bore.

Thundelarra owns 90% of the Red Bore project, which is located in the Doolgunna region of Western Australia.

Shareholders and other interested parties can view the video by clicking on the following link:
