ABOUT BCI MINERALS

BCI Minerals Limited (ASX:BCI) is an Australian-based company that is developing a salt and potash business supported by iron ore royalty earnings.

BCI is rapidly advancing its 100% owned Mardie Salt & Potash Project, a potential Tier 1 project located on the West Pilbara coast in the centre of Australia’s key salt production region. A Definitive Feasibility Study (DFS) on the Mardie Project was completed in Q2 2020.

Mardie aims to produce 4.4Mtpa of high-purity salt (>99.5% NaCl) and 120ktpa of sulphate of potash (SOP) (>52% K₂O) via solar evaporation of seawater. Using an inexhaustible seawater resource and a production process driven mainly by natural solar and wind energy, Mardie is a sustainable opportunity to supply the salt and potash growth markets in Asia over many decades. BCI recently acquired adjacent tenements which provide capacity to optimise and expand the project beyond the DFS production levels.

With a Final Investment Decision targeted in early 2021 and construction start by mid-2021, first salt sales can be achieved by mid-2024 and first SOP sales by mid-2025.

BCI receives quarterly royalty earnings from Iron Valley, an iron ore mine located in the Central Pilbara region of Western Australia which is operated by Mineral Resources Limited (ASX:MIN). BCI’s EBITDA from Iron Valley for FY20 was A$23.0M.
