Clean TeQ – new focus, new location

Mr Cory Williams, Chief Executive Officer (CEO) of Clean TeQ Holdings Limited (ASX: CLQ) has announced that the company is re-locating this week, from Dandenong South to a more modern facility at 296 Ferntree Gully Road, Notting Hill, Victoria, 3168, close to its development partner CSIRO.

The new facility includes state of the art research and testing laboratories, will enable easier access to transport links and facilitate staff recruitment.

The company will move its IT infrastructure to a cloud based service as part of the move.

The relocation is one outcome of Mr Williams' stated goals for his first 100 days as CEO of Clean TeQ which include sharpening both operations and company focus.

About Clean TeQ Holdings Limited (ASX: CLQ)

Clean TeQ (ASX: CLQ) is a world leader in water treatment and resource recovery technology and the Australian leader in biological air purification. Clean TeQ develops technologies in-house and partners with leading technology suppliers worldwide.

The Company offers a range of business models to potential clients including licensing our technology, building and commissioning complete installations (both transportable and fixed), and building and operating installations in joint ventures, in return for a share of revenues generated through resources recovered. Clean TeQ will also acquire mining assets where its technologies can make exploitation of uneconomic ore bodies or re-processing of tailings profitable.

For more information about Clean TeQ please visit the Company's website at www.cleanteq.com.
