

ONO ISLAND & NADRAU PROJECTS – RENEWALS OF SPL1451 & SPL1452

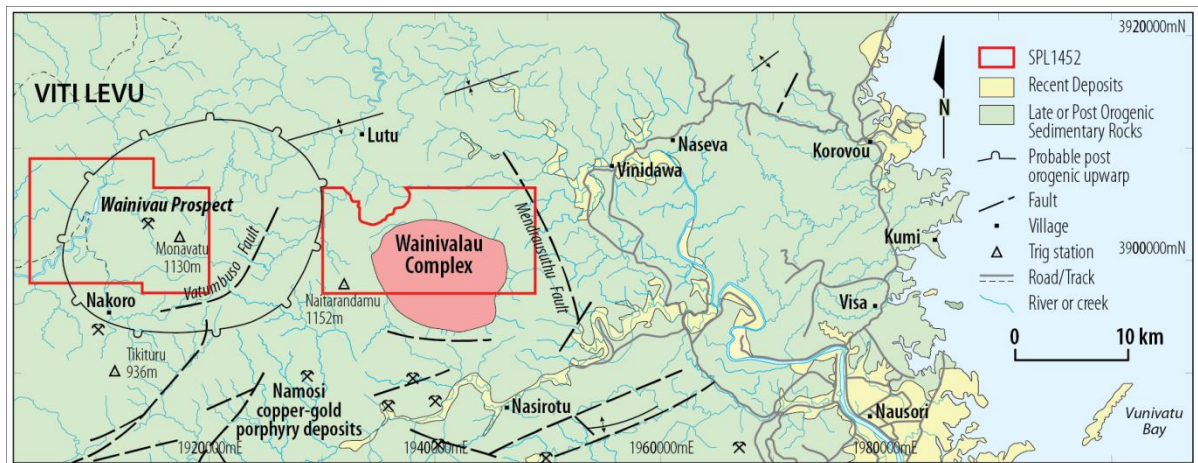

Dome Gold Mines Limited (“Dome” or “the Company”) (ASX: DME) is pleased to announce that Special Prospecting Licences (SPL) for its Ono Island Project (SPL1451) and Nadrau Project (SPL1452) have been renewed by the Mineral Resources Department (MRD) in Fiji.

SPL 1451 contains two high sulphidation epithermal gold prospects (Naqara East and Naqara West) on the northern half of Ono Island where exploration previously announced by the Company, most recently Induced Polarisation (IP) surveys have produced targets that Dome now will follow-up with a ten-hole exploration diamond drilling program.

SPL 1452 covers an area in Central Viti Levu where geological mapping and soil geochemistry have outlined two porphyry copper-gold prospects (Namoli and Wainivau). Future exploration on these prospects will include IP and magnetometer surveys. The objective of this work is to provide focus for a future exploration drilling program at both the Namoli and Wainivau Prospects.

J V McCarthy
 Chief Executive Officer

COMPETENT PERSONS' STATEMENTS:

The information in this report that relates to Exploration Results is based on information compiled by John McCarthy, who is Chief Executive Officer of the Company. Mr McCarthy is a geologist who is a Member of the Australasian Institute of Mining and Metallurgy and has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activities which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr McCarthy indirectly holds shares in the Company and consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

ABOUT DOME

Dome is an Australian mining company, which listed on the ASX on 22 October 2013. The Company is focussed on gold, copper and mineral sands in Fiji, where it holds three highly prospective exploration tenements. The Company's objective is to become a major force in the mining industry of Fiji by the discovery and development of mineral resources within its Fijian tenements.

Sigatoka is a mineral sand project containing abundant heavy metals including magnetite. Drilling to establish an initial resource estimate for the project has been completed, and further drilling is expected to increase the resource base substantially. Commencement of production at Sigatoka by conventional dredging and wet processing is anticipated within two years.

Our other projects are the Ono Island epithermal gold project and the Nadrau porphyry copper-gold project.

Dome's Board and Management team has a high level of experience in Fiji, and Dome has been actively exploring in Fiji since 2008.

DOMES MINES LTD TENEMENT SCHEDULE

Tenement	Name	Holder	Interest %	Area (hectares) at	
				31 March 2016	Expiry Date
SPL 1451	Ono Island	Dome Mines Ltd	100	3,028	12/02/2020
SPL 1452	Central Viti Levu	Dome Mines Ltd	100	33,213	12/02/2019
SPL 1495	Sigatoka Ironsand	Magma Mines Ltd	100	2,522	13/07/2018
