ASX RELEASE

MRL's OFFER FOR MESA **FINAL EXTENSION AND NOTICE THAT PRICE IS FINAL**

Mineral Resources Limited ("MRL") wishes to announce that is extending its takeover offer (Offer) for all the ordinary shares in Mesa Minerals Limited ("Mesa") so that the Offer now closes at 5.00pm (WST/Perth) on 27 August 2010 (Closing Date).

MRL's does not intend to extend the Offer again, but reserves its right to do so if it receives acceptances for more than 80% of Mesa's shares prior to the Closing Date or if required by law.

The Offer price of 1 MRL Share for every 70.6 Mesa Shares is also final and **will not be increased** provided that MRL reserves the right to increase the Offer if a competing bid is announced prior to the closing date of the Offer.

MRL Executive Chairman Peter Wade said:

"We encourage all remaining Mesa shareholders to **ACCEPT** MRL's Offer as soon as possible to participate in the significant opportunities that the new combined MRL / Mesa group can enjoy from the successful completion of the takeover."

The Mesa share price may fall immediately following the close of the MRL Offer.

On closing of the Offer the Mesa share price will no longer be supported by the consideration being offered by MRL and may revert back to pre Offer trading levels, which were materially lower than the Offer price.

Given that over 80% of Mesa's shares will be held by only two parties, MRL and Mighty River International Limited (**Mighty River**), it is highly unlikely that a new bidder will emerge for Mesa.

Due to these material holdings, Mesa shareholders should also be aware that, if they do not accept the Offer, the liquidity of Mesa shares may be markedly lower than at present and they may become a "locked-in" minority after the end of the Offer period

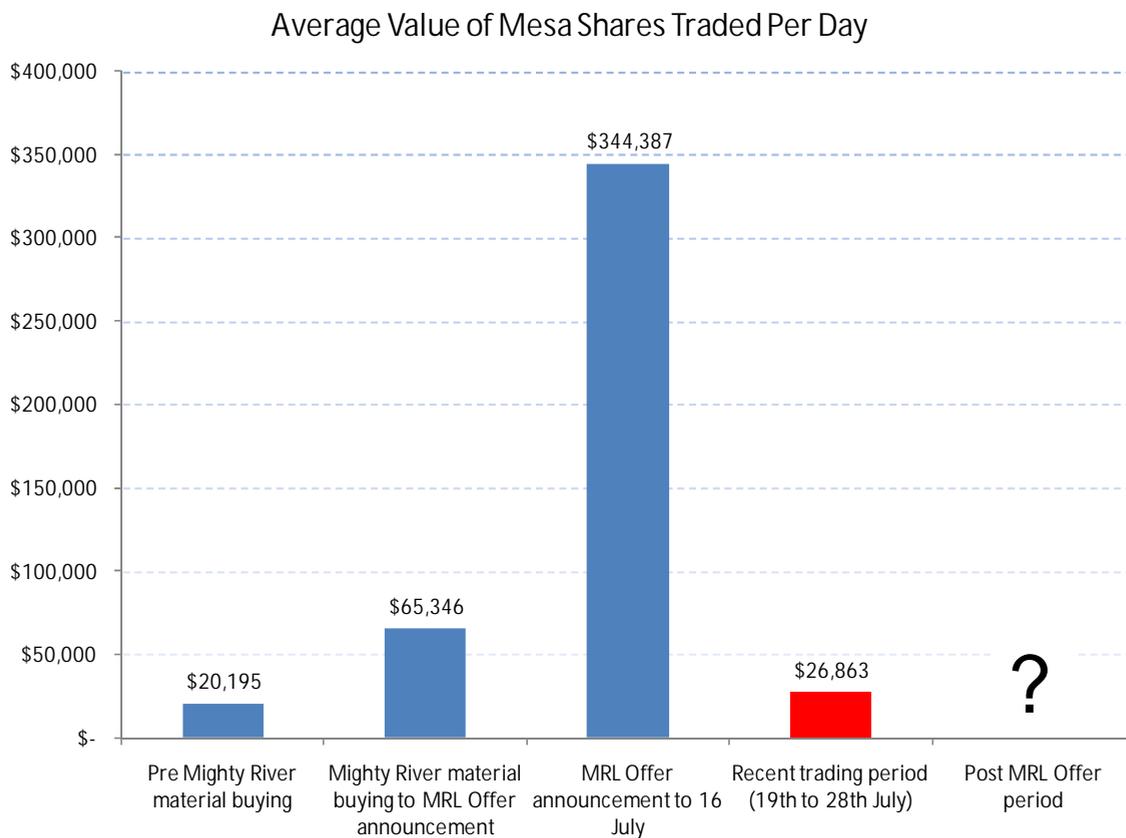

Recent trading in Mesa shares has been sparse, and MRL expects the liquidity of Mesa shares to fall further after the Offer closes. This will make it very difficult for larger shareholders to sell their Mesa shares into the market without having a further material negative impact on the price.

The chart below illustrates the average daily trading value of Mesa shares for four distinct periods since March 2009. It is important to note that post the Offer period the free float will make up less than 20% of Mesa shares, whereas the majority of Mesa shares formed the free float for the first two periods in the chart.

Notes: Period dates from left to right; 2/3/09 to 10/11/09, 11/11/09 to 19/3/10, 22/3/10 to 16/7/10, 19/7/10 to 28/7/10

MRL currently has a relevant interest in 60.67% of Mesa Shares (as at 5.00pm (WST) 29 July 2010). Despite the number of acceptances already achieved, the stake held by Mighty River still represents a material obstacle to the availability of CGT rollover relief for former Mesa shareholders who have accepted the Offer. MRL calls on Mighty River to accept the Offer not only to secure an attractive return on its own investment, but also to ensure CGT rollover relief is available for all former Mesa shareholders.
