

31 October 2013

Resonance Health Ltd (ASX:RHT) Appendix 4C – 1st Quarter Cash Flow Report

Resonance Health Limited today released its first quarter Cash Flow Report for the period ending 30 September 2013.

Cash at 30 September 2013 was \$932,144 representing a decrease of \$161k for the September quarter. This compares to a net cash inflow of \$156k in the previous quarter which included EMDG and tax receipt. Cash receipts from customers in the September 2013 quarter were down 5% on the prior quarter. Cash payments in the September 2013 quarter were 12% down on the previous quarter.

Resonance Health provided 1,225 image analysis services in the September 2013 quarter, an increase of 37% over the same period in 2012. The Company's major markets performed well with sales volumes increasing in the UK by 41% and in the USA by 17% compared to the same quarter in the previous year.

Approximately 80% of the image analysis work performed in the September 2013 quarter related to the use of FerriScan in the non-clinical trial setting demonstrating the increasing use of FerriScan by the clinical community and reducing the Company's reliance on a small number of clients. However, contracts with Pharmaceutical companies using FerriScan provide a broader revenue base for the Company including project management and data management services.

Several new FerriScan imaging facilities were established during the quarter, including the first FerriScan facilities in Sweden, Tunisia, China and Vietnam. Some of these countries have significant numbers of patients with iron overload who will benefit from having FerriScan available to assess their liver iron concentration.

Work is continuing on the development of the Company's liver fibrosis test and we hope to have results to provide to shareholders in the next quarterly report. The Company has also finalised the additional information requested by the FDA regarding HepaFat-Scan for the assessment of fatty liver disease. A decision is expected from the FDA in the first quarter of 2014.
