RED RIVER RESOURCES LIMITED (RVR)
Tambellup/Gnowangerup Project Update (RVR 100%)

The West Australian Department of Mines and Petroleum has granted Tambellup North exploration license E70/4461 which covers approximately 170km² and is situated 100km north of Albany and 40 km south of Katanning in southern Western Australia.

After reviewing the Tambellup (E70/4219) & Gnowangerup (E70/4220) exploration work carried out by Red River in 2012-2013 the company has surrendered these licenses to mitigate expenses so exploration can be concentrated on the newly granted Tambellup North E70/4461, the location of which is shown in figure 1.
