

## Red River fires first production stope at Far West

---

### Highlights:

- **First production stope at Far West (Far West 840-2902 Stope) fired and stope ore delivered to the Thalanga ROM Pad**
- **Production from Far West will progressively ramp up to over 300ktpa – becoming the dominant feed source for the Thalanga Operation**
- **Far West is the second mine at Thalanga successfully developed and delivered by Red River in two years**
- **Far West extends Thalanga mine life for 5+ years – with potential development of other deposits.**

---

Red River Resources Limited (ASX: RVR) (“Red River” or the “Company”) is pleased to advise it has fired the first production stope at the Far West mine, part of its Thalanga operations in Queensland.

Far West is the second mine to be developed by Red River in the past two years, following the successful development of the West 45 mine in 2017.

Red River Managing Director Mel Palancian noted the significant value that the Far West mine will deliver to the Company by providing additional mill feed and extending the mine life of the Company's Thalanga operations.

*"Bringing our second mine online at Thalanga is an exciting step and I'm pleased with the progress we have made at Far West, which has seen a strong operational performance from our team to ensure it is successfully delivered."*

*Far West development ore processed at Thalanga exceeded our expectations and the estimates used in the Thalanga Re-start Study so we are looking forward to ramping up production from Far West."*

## About Red River Resources (ASX: RVR)

RVR is seeking to build a multi-asset operating business focused on base and precious metals with the objective of delivering prosperity through lean and clever resource development.

RVR's foundation asset is the Thalanga Base Metal Operation in Northern Queensland, which was acquired in 2014 and where RVR commenced copper, lead and zinc concentrate production in September 2017.

With the recent acquisition of Hillgrove Mines Pty Ltd, RVR will hold the high-grade Hillgrove Gold-Antimony Project in New South Wales, which will enable RVR to build a multi-asset operating business focused on base and precious metals.

On behalf of the Board,

**Mel Palancian**

**Managing Director**

Red River Resources Limited
