MINING 121 CONFERENCE PRESENTATION

Thundelarra CEO Tony Lofthouse will deliver a presentation at the Mining 121 Conference that is being held in Hong Kong on Wednesday 29 and Thursday 30 March 2017.

The presentation will outline the exciting gold exploration targets being tested by drilling currently underway at the Garden Gully gold project located near Meekatharra, a proven gold-producing district in Western Australia's Eastern Goldfields. The Garden Gully gold project is Thundelarra's flagship exploration project at present.

The presentation also provides brief updates on other targets in our exploration portfolio, including copper-gold at Red Bore; copper-graphite-uranium at Allamber; zinc and graphite at Sophie Downs; and nickel at Keller Creek (where Thundelarra has a 20% free carried interest).

To view, please see the attached pdf of the presentation or visit the Company's website
