

ASX Announcement

28 June 2019

Successful Placement of A\$1.8 million

Highlights

- **Commitments received from institutional and sophisticated investors for a well-supported A\$1.8 million placement**
- **Funds will be used for exploration work programs for the Alligator River Project and to refresh the Mulga Rock Project Definitive Feasibility Study**

Vimy Resources Limited (ASX: VMY) is pleased to announce that A\$1.8 million was successfully raised through a placement to institutional and sophisticated investors (**Placement**).

Placement

The Company will issue approximately 36.7 million fully paid ordinary shares at an issue price of \$0.05 per share, representing approximately 7.6% of the shares currently on issue (on a pre-Placement basis), pursuant to its existing capacity under ASX Listing Rule 7.1A (36,673,302 shares). All new shares, once issued, will rank pari passu with existing shares.

Morgans Corporate Limited and Euroz Securities Limited acted as joint lead managers and bookrunners to the Placement, which was well supported by both existing and new institutional and sophisticated investors.

Vimy's Managing Director and CEO Mike Young said, *"Many investors share our view that Vimy is the most leveraged uranium play in the market. I'd like to welcome all new shareholders to the register and thank those who have followed, or increased, their holding."*

"The raise allows us to continue our exploration efforts on Alligator River, highlighting the huge potential for the development of Angularli and the outstanding exploration potential of Such Wow – and these are only two of over a dozen targets at this Project."

"The uranium market has seen fundamental changes to the supply chain in the past eighteen months including the closure of Cameco's McArthur River mine and the IPO of Kazatomprom on the London Stock Exchange. Cameco needs to see sustainably higher prices to re-open McArthur River and Kazatomprom have moved to a value over volume mindset as a result of the listing. But the real catalyst for the sector will be the conclusion of the Section 232 Petition wherein we only see two outcomes for the uranium industry; good or better. Any outcome will result in market certainty and the US utilities, who've been effectively frozen by the Petition, will re-enter the market. This will put upward pressure on the spot price and therefore investor sentiment."

"I would like to thank Euroz and Morgans for undertaking such a successful fundraising process."

Indicative Timetable

Event	Date
ASX announcement and return to trade	Friday, 28 June 2019
Settlement of Placement	Friday, 5 July 2019
Expected date of ASX quotation of Placement shares	Monday, 8 July 2019

Use of Funds

The funds raised from the Placement will be used to progress the Alligator River Project in the Northern Territory and the Mulga Rock Project in Western Australia, as well as for working capital purposes.

Alligator River Project – activities to unlock the potential of this world-class project, including diamond drilling, passive seismic, surface surveys, radon emanation, baseline environmental studies and planning the future exploration programs at Angularli and Such Wow.

Mulga Rock Project – activities to refresh input data to the January 2018 Definitive Feasibility Study and consider an optimisation.

This announcement does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or any other jurisdiction. Any securities described in this announcement have not been, and will not be, registered under the US Securities Act of 1933 and may not be offered or sold in the United States except in transactions exempt from, or not subject to, registration under the US Securities Act and applicable US state securities laws.

About Vimy Resources

Vimy Resources Limited (ASX: VMY) is a Perth-based resource development company. Vimy's flagship project is the Mulga Rock Project, one of Australia's largest undeveloped uranium resources which is located 290km ENE of Kalgoorlie in the Great Victoria Desert of Western Australia.

Vimy also owns (78%) and operates the largest granted uranium exploration package in the world-class Alligator River uranium district, located in the Northern Territory. Vimy is exploring for large high-grade uranium unconformity deposits identical to those found in the Athabasca Basin in Canada.
