

Zelda Therapeutics to present activities update

- J Dr Stewart Washer to deliver the online 30-minute presentation followed by 15-minutes of live Q&A
- J Opportunity for a global audience to gain more insights on Zelda Therapeutics' business activities

Zelda Therapeutics Ltd (ASX: ZLD, Zelda Therapeutics or the Company) is pleased to advise it will present an activities update through the CANNAINVESTOR Webcast (www.cannawebcast.com) on Friday, 24 February 2017 at 8:00am AEST. With Dr Stewart Washer, Director of Zelda Therapeutics, to deliver the online 30-minute presentation followed by 15-minutes of live Q&A.

Cannabis investors, analysts, executives, media, and consumers interested in attending the online webcast, can visit the Registration Page at www.cannawebcast.com, this will allow audiences to participate in a live Q&A session with Dr Stewart Washer. The recorded presentation will be available two weeks after the live presentation at www.youtube.com under the search "Cannabis Investor Webcast".

CANNAINVESTOR is a US publication that is the only cannabis industry publication targeted at investors, analysts and financial media. With over 30,000 subscribers in more than 30 countries, the CANNAINVESTOR magazine and webcast provides an excellent opportunity for audiences worldwide to be provided with an interactive overview of Zelda Therapeutics through the convenience of a digital platform.

The Company will also feature in an article that can be viewed from the 2 March 2017 by subscribing for free through this website www.cannainvestormag.com.

Harry Karelis, Executive Chairman said "The CANNAINVESTOR Magazine and Webcast are digital platforms that will assist in lifting Zelda's profile to better reach global audiences, increasing awareness on who we are and the valuable research we are undertaking. Zelda continues to focus on striving for excellence and maintaining our position as a leader in medical cannabis research, and in the development of natural medicines".

About Zelda Therapeutics (www.zeldatherapeutics.com)

Zelda Therapeutics ("Zelda") is an Australian-based bio-pharmaceutical company that has secured exclusive, global access to an extensive set of human data related to medicinal cannabis based formulations and treatment protocols. This human data has been generated over several years by a California-based group (Aunt Zelda's) that has a very high profile within the USA and a growing international profile based upon its deep knowledge of the scientific rationale for certain cannabis-based formulations and protocols to treat a variety of medical conditions.

Zelda has embarked on a programme of human clinical trials initially in sleep disorder (insomnia) and eczema indications.

In addition, Zelda is building a pre-clinical research portfolio targeting cancer. It has partnered with the world's leading cancer cannabis researchers at Complutense University Madrid in Spain to conduct certain pre-clinical work testing cannabis-based formulations known to have an effect in humans in order to generate data packs in a form expected by regulators and the pharmaceutical industry. A similar programme is in place with the Australian Telethon Kids Institute targeting paediatric brain cancer and Curtin University targeting pancreatic cancer.
