Disclaimer

This investor presentation has been prepared by Aeris Resources Limited ("Aeris" or the "Company"). By attending an investor presentation or briefing, or accepting, accessing or reviewing this presentation, you acknowledge and agree to the terms set out below.

SUMMARY INFORMATION

This presentation is for information purposes only and should be read in conjunction with the most recent financial reports and other documents lodged by Aeris with the Australian Securities Exchange ("ASX") in connection with its continuous disclosure obligations. This presentation does not purport to contain all of the information that an investor should consider when making an investment decision nor does it contain all of the information which would be required in a product disclosure statement or prospectus prepared in accordance with the requirements of the Corporations Act.

No reliance should be placed on the information or opinions contained in this presentation, which are provided as at the date of this presentation (unless otherwise stated) and to the maximum extent permitted by law, Aeris has no obligation to update the information contained in this presentation. An investment in securities is subject to known and unknown risks, some of which are beyond the control of Aeris. Investors should consult with their own legal, tax, business and/or financial advisors in connection with any acquisition of securities.

FINANCIAL INFORMATION

All financial information set out in this presentation is expressed in Australian Dollars unless stated otherwise. Investors should be aware that certain financial measures included in this presentation are "non-IFRS financial information" under ASIC Regulatory Guide 230: "Disclosing non-IFRS financial information" published by ASIC and also "Non-GAAP financial measures" within the meaning of Regulation G under the US Securities Exchange Act of 1934 and are not recognised under the AAS or IFRS. Aeris believes the non-IFRS financial information and non-GAAP financial measures provide useful information to users in measuring the financial performance and condition of Aeris.

However, investors should note that the non-IFRS financial information and non-GAAP financial measures do not have standardised meanings prescribed by AAS or IFRS. Therefore, the non-IFRS financial information is not a measure of financial performance, liquidity or value under the IFRS and may not be comparable to similarly titled measures presented by other entities, nor should the information be construed as an alternative to other financial measures determined in accordance with AAS or IFRS. Investors are cautioned, therefore, not to place undue reliance on any non-IFRS financial information included in this presentation.

FUTURE PERFORMANCE AND FORWARD-LOOKING STATEMENTS

This presentation contains certain 'forward-looking' statements, opinions and estimates, which are based on assumptions and contingencies that are subject to change without notice and involve known and unknown risks and uncertainties beyond the control of Aeris and its officers. This includes statements about market and industry trends, which are based on interpretations of current market conditions. Indications of, and guidance on, future earnings and financial position and performance are forward-looking statements. As are statements containing the words "expect", "anticipate", "estimate", "intend", "believe", "guidance", "should", "could", "may", "will", "predict", "plan" and other similar expressions. Forward-looking statements are based on information available to Aeris as at the date of this presentation and should not be relied upon as an indication or guarantee of future performance. Except as required by law or regulation (including the ASX Listing Rules), none of Aeris, its representatives or advisers undertakes any obligation to provide any additional or updated information whether as a result of a change in expectations or assumptions, new information, future events or results or otherwise. Investors are strongly cautioned against placing undue reliance on forward-looking statements, especially considering the current economic climate and significant volatility, uncertainty and disruption caused by recent world events such as the COVID-19 pandemic and international hostilities and associated economic changes.

DISCLAIMER

To the maximum extent permitted by law, Aeris and each of its respective related bodies corporate, shareholders and affiliates, and each of their respective officers, directors, partners, employees, representatives, affiliates, agents, consultants and advisers (each a "Limited Party"):

- expressly disclaim any and all responsibility and liability (including, without limitation, any liability arising from fault, negligence or negligent misstatement) for any direct, indirect, consequential or contingent loss or damage arising from this presentation or reliance on anything contained in or omitted from it or otherwise arising in connection with this presentation;
- disclaim any obligations or undertaking to release any updates or revisions to the information in this presentation and;
- do not make any representation or warranty, express or implied, as to the accuracy, reliability, completeness or fairness of the information, opinions and conclusions contained in this presentation or that this presentation contains all material information about Aeris or the Transaction or that a prospective investor or purchaser may require in evaluating a possible investment in Aeris or acquisition of shares in Aeris, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement.

NO NEW INFORMATION STATEMENT

This presentation refers to Exploration Results, estimates of Mineral Resources and Ore Reserves contained in the Group Mineral Resource and Ore Reserve Statement as at 31 December 2023 which was announced on 17 June 2024 (2024 MROR Group Statement), as well as Updated Mineral Resource Estimate of Constellation (announced on 31 March 2025 "Aeris Delivers Material Increase in Copper and Gold at Constellation") and prior market announcements released by Aeris, (Prior Reports). The Prior Reports are footnote referenced in this presentation and available from: <https://www.aerisresources.com.au/investor>.

Aeris confirms that it is not aware of any new information or data that materially affects the information included in the Prior Reports and, in the case of Exploration Results, estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the results or estimates in the Prior Reports continue to apply and have not materially changed. Aeris confirms that the form and context in which the Competent Person's findings are presented in this document have not been materially modified from the Prior Reports.

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES

This Presentation does not constitute an offer to sell, or the solicitation of an offer to buy, any securities in the United States. The securities referred to in this Presentation have not been, and will not be, registered under the US Securities Act of 1933 (the "US Securities Act") or the securities laws of any state or other jurisdiction of the United States, and may not be offered or sold, directly or indirectly, to any person in the United States or to any person acting for the account or benefit of a person in the United States unless they have been registered under the US Securities Act (which Aeris has no obligation to do or to procure) or are offered or sold pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act and any applicable securities laws of any state or other jurisdiction of the United States.

Aeris Resources

Australian mid-tier, base and precious metals producer

2 producing operations (FY26: 40-49kt copper eq.)¹

3 development projects

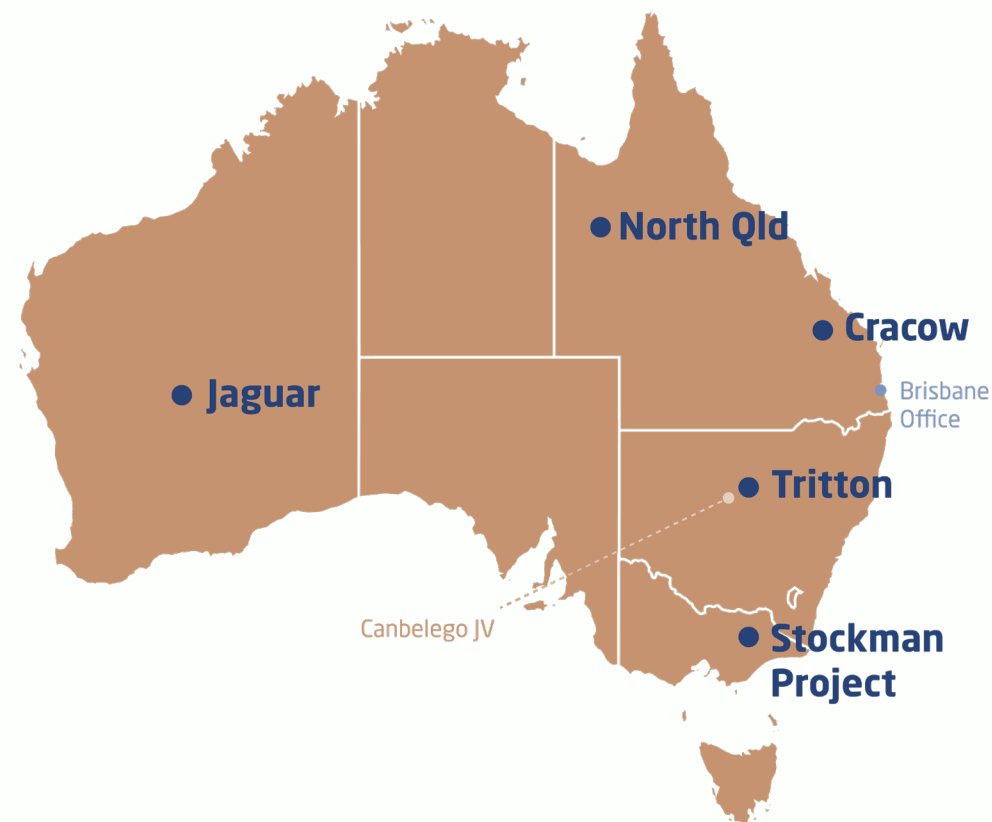

Investing in exploration

Substantial copper production and metal inventory

Excellent platform for growth

1. $Cu\ Eq\ t = ((Cu\ Produced\ x\ Cu\ \$/t) + (Au\ Produced\ x\ Au\ \$/oz) + (Ag\ Produced\ x\ Ag\ \$/oz)) / (Cu\ \$/t)$
 Assumed average commodity prices FY26: US\$9,429/t Cu, US\$3,241/oz Au, US\$35/oz Ag. Aeris confirms that it is the Company's opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold.

Key points for Q1 FY26

Solid operating performance

Group copper equivalent production of 10.3kt¹

Costs well managed across the group

Cash and receivables at end of quarter of \$46.4 million

Strong safety performance – no lost time injuries for the quarter

Tritton production of 6.1kt Cu at AISC of A\$4.24/lb, consistent with previous quarter

Avoca Tank mineralisation intersected 400m down plunge of the current Mineral Resource

Cracow gold production in line with plan – 8.9koz at AISC of A\$3,692/oz

Review of remnant mineralisation in Cracow Western Vein Field has brought an additional 20koz Au into the mine plan

Grade model² developed for the Golden Plateau deposit at Cracow

Advancing divestment options for North Queensland

1. Refer to ASX release September 2025 Quarterly Activities Report for production detail.

$$\text{CuEq} = ((\text{Cu Produced} \times \text{Cu } \$/\text{t}) + (\text{Au Produced} \times \text{Au } \$/\text{oz}) + (\text{Ag Produced} \times \text{Ag } \$/\text{oz})) / (\text{Cu } \$/\text{t})$$
 Commodity prices: US\$9,792/t Cu, US\$3,454/oz Au, US\$39/oz Ag

2. Grade model developed for internal planning only. The grade model is not JORC 2012 compliant and does not represent either a Mineral Resource or Ore Reserve

Q1 FY26 results

Production consistent with previous quarter

Production of 6.1kt Cu at AISC of A\$4.24/lb

\$25 million growth capital invested in waste stripping at Murrawombie Pit with ore to be delivered over H2 FY26

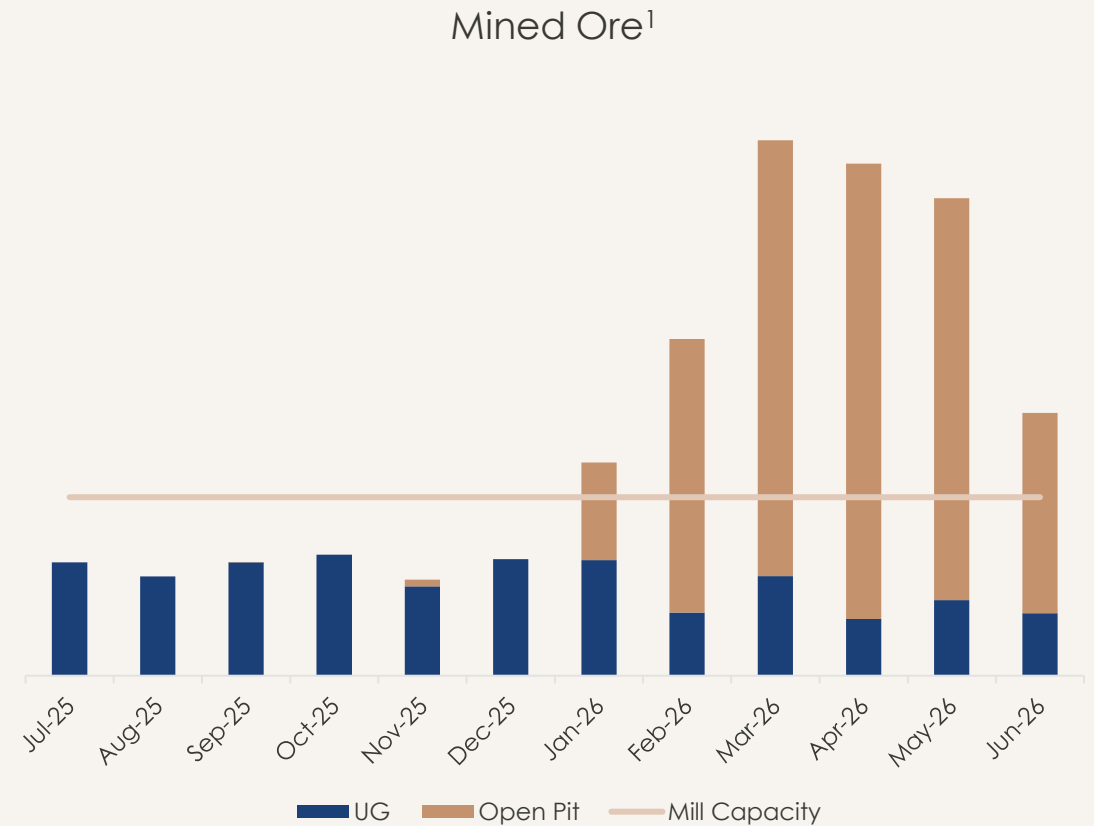

Murrawombie Pit Stage 1 ore processing complete and Stage 2 waste stripping underway

Over 17,000m of diamond drilling completed

Avoca Tank mineralisation intersected 400m down plunge of the current Mineral Resource

Constellation

Project technical work progressing:

Open cut and underground mine design

Preparation for maiden open cut Ore Reserve

Metallurgical testwork on sulphide and oxide ore

Finalisation of infrastructure designs

Permitting and environmental approvals

Exploration

Sulphide mineralisation intersected 250 – 400m below the base of the Avoca Tank Mineral Resource¹
