

19 March 2025

Onslow Iron Haulage Operations

Mineral Resources Limited (**ASX: MIN**) (**MinRes** or **Company**) advises that haulage on the Onslow Iron haul road has been temporarily paused while the Company engages with WorkSafe WA on their notice issued on 18 March 2025 relating to controls and risk-mitigation of the road train operations.

MinRes reported to WorkSafe WA that the rear two trailers of a road train had tipped onto their side on the haul road on 17 March 2025. The prime mover and first trailer remained upright, and the operator was not injured. The cause of the incident is under internal investigation.

Haulage is continuing via contractor vehicles using alternative routes, and MinRes transhippers will continue to load ocean-going vessels during this period.

MinRes has strengthened controls and traffic management on the haul road and currently expects to resume haul road operations without impacting FY25 Onslow Iron volume guidance.

ENDS

This announcement dated 19 March 2025 has been authorised for release to the ASX by Mark Wilson, Chief Financial Officer and Company Secretary.
