Mineral Resources reports its business results as a consolidated mining services and processing group operating within the resources sector of the Australian economy.

The increase in revenue over the prospectus forecast reflects the continuation of new projects commenced in the last quarter of 2005/06, and established ahead of our prospectus forecasts, supplemented by significant additional contracting and processing works.

The outlook in the Mineral Resources business segment continues to be very positive with resources markets in iron ore and base metals expected to continue strongly as a result of demand from China and the other developing Asian and sub-continent countries.

The strength of the resources sector translates into mine developments for existing clients which present new contract opportunities for the company. These opportunities are supplemented by a significant push by junior miners to bring their operations on-stream to access the current strength in commodity prices.

The ongoing success of contracts and a buoyant resources market provide a strong increase in profitability for the half-year with the growth generated by the demand for commodities projected to continue strongly. The directors confirm that Mineral Resources is on target to exceed its full year forecast announced to the markets on 15 November 2006 of \$16 million normalized profit after income tax.

Yours Sincerely

Peter Wade

Managing Director

#### DIRECTORS' REPORT

The Directors submit their report on the consolidated entity of Mineral Resources Limited and the entities it controlled at the end of, or during the half-year ended 31 December 2006.

The names of the company's directors in office during the half-year and until the date of this report are as below.

Michael Kiernan (Non-Executive Chairman) Peter Wade (Executive Director / Managing Director) Chris Ellison (Executive Director) Joe Ricciardo (Non-Executive Director)

Directors were in office for the entire period unless otherwise stated.

**Review of Operations** 

The consolidated entity recorded a normalised operating profit after income tax of \$8.014 million (stated operating profit of \$7.322 million comprises the normalised profit less share based payment expenses of \$0.692 million) for the half-year ended 31 December 2006.

The principal activity of the consolidated entity is as an integrated supplier of goods and services to the resources sector. There has been no significant change in the nature of this activity during the period.

On 28 July 2006 the company was listed on the Australian Stock Exchange and raised \$13,500,000 through an initial public offering.

The operations of the three subsidiary companies have all been growing strongly over the last six months and are on target to meet the director's projection for a full year result in excess of \$16 million. This forecast is an increase of 55% over financial year 2006 and 21% above the prospectus forecast.

The six month period has seen the consolidation of the performance of the Nammuldi iron ore contract crushing operation with increased tonnage throughput in excess of 25% above contract tonnages as well as the implementation of a further five million tonne per annum contract in the iron ore sector.

The company has also entered into an annual 280,000 tonne manganese sale contract with CITIC, the largest manganese mining operation and processing company in China. That contract will underpin the Mineral Resources manganese processing operation at Woodie Woodie which has previously traded all of its manganese ore on the spot market.

The pipeline of potential contracts and additional processing operations continues to be extensive and the company is well placed with proven performance, a solid reputation and strong balance sheet to improve its position as an integrated supplier of goods and services to the resource sector.

**Auditor's Independence Declaration** 

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is included within the financial statements.

#### INDEPENDENT AUDITOR'S REVIEW REPORT

#### TO THE MEMBERS OF

### MINERAL RESOURCES LIMITED

### The Financial Report

We have reviewed the accompanying half-year financial report which comprises the income statement, balance sheet, statement of changes in equity, cash flow statement, accompanying notes to the financial statements and directors' declaration for Mineral Resources Limited (the consolidated entity), for the half-year ended 31 December 2006. The consolidated entity comprises both Mineral Resources Limited (the company) and the entities it controlled during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Mineral Resources Limited are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

### Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of an Interim Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporations Act 2001 including:

- giving a true and fair view of consolidated entity's financial position as at 31 December 2006 and its performance for the half-year ended on that date; and
- complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

As the auditor of Mineral Resources Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Independence

In conducting our review, we have followed applicable independence requirements of Australian professional ethical pronouncements and the Corporations Act 2001.

#### Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Mineral Resources Limited is not in accordance with the Corporations Act 2001 including:

- giving a true and fair view of the consolidated entity's financial position as at 31 December 2006 and of (a) its performance for the half-year ended on that date; and
- complying with Accounting Standard AASB 134 Interim Financial Reporting and Corporations (b) Regulations 2001.
