MANAGING DIRECTOR AND CEO'S ADDRESS

Deer Park, circa 1940

Safety is our priority, always

Our people are the foundation of our company and our most valued asset

A wide-angle photograph of a large-scale quarry operation. In the foreground, a massive, turbulent plume of white dust and rock debris erupts from a deep excavation, creating a powerful visual impact. The background shows the multi-tiered, stepped walls of the quarry, revealing different layers of rock. The sky is a clear, bright blue. The overall scene conveys a sense of industrial power and scale.

We continued to successfully execute our strategy and delivered another year of high-quality earnings and strong financial performance

A wide-angle photograph of an industrial facility, likely a chemical or mining processing plant, taken during the "blue hour" of sunset. The scene is dominated by large, cylindrical storage tanks on the left, a complex network of elevated metal walkways and pipes in the center, and various smaller industrial structures and tanks on the right. The sky is a mix of orange, yellow, and blue, with the sun low on the horizon. In the background, dark silhouettes of mountains are visible against the twilight sky. The overall atmosphere is industrial yet serene due to the lighting.

**Through our strategic acquisitions, we
have positioned Orica for growth beyond
blasting, becoming the global leader in
each of our business segments**

**We are committed to achieving our
ambition of net zero emissions by 2050**

This year represented one of our most significant years in terms of planned turnarounds at our Kooragang Island, Yarwun and Carseland manufacturing plants

A photograph showing a person in a purple and white patterned shirt offering a green plant to two women. The women are wearing black clothing and have white body paint on their faces and hands. They are standing outdoors at night.

It is important to us that we continue to build positive and transparent relationships with people in the communities we work in

**Our performance demonstrates our
resilience and ability to adapt and
mitigate ongoing macro-economic
and geopolitical challenges**

Thank you.
