FY22 KEY HIGHLIGHTS

Strong trading performance despite ongoing disruption from COVID

- FY22 Group operating results significantly outperformed prior year and FY19 pre-COVID levels despite the ongoing pandemic
- Main Event revenue of US\$426.2 million and EBITDA excluding Specific Items of US\$106.5 million, were up 59.7% and 174.7% on prior year, respectively
 - Constant centre revenue was up 41.0% on prior year (23.5% on pre-COVID levels¹)
 - Four new Main Event centres were opened in the year, and three Summit centres were acquired in March 2022
 - Sale of Main Event business to Dave & Buster's for US\$835 million on a cash-free debt-free basis
- Theme Parks & Attractions revenue of \$49.5 million was up 37.3% and EBITDA loss excluding Specific Items of \$15.0 million increased 45.1% on prior year
 - Total visitation was 18.4% higher than prior year
 - Ticket sales value² up approximately 61% on prior year due to increase in volumes and yield improvements
 - \$2.0 million government subsidies and grants were received compared to \$10.5 million³ net benefit in the prior year. Excluding these, FY22 EBITDA margin improved significantly
 - Successful launch of Steel Taipan in December 2021 well received by guests
- Net loss after tax for the Group was \$97.4 million compared to \$86.9 million in FY21, due to current year EBITDA being impacted by several significant one-off expenses including costs associated with the sale of Main Event, which completed in early FY23
- Following the Main Event sale, all debt facilities extinguished and \$455.7 million distributed to shareholders

¹ Constant centre revenue is benchmarked against the pre-COVID period, defined being between March 2019 and February 2020

² Sales value of tickets represents the upfront value of tickets sold. For annual/multi day passes, this differs from revenue reported under accounting standards which is recognised on a straight-line basis over the period of the passes

³ Comprises \$15.3 million government subsidies and grants received, offset by \$4.8 million incremental "top-up" payments to employees where earnings were less than the JobKeeper subsidy. The JobKeeper subsidy ended in March 2021

ARDENT MOVING FORWARD

Solid financial position post sale of Main Event

The sale of Main Event completed on 30 June 2022 for US\$835 million on a cash-free debt-free basis. Ardent now has a strengthened financial position moving forward:

A\$m	As reported 28 June 2022	Adjustments ¹	Pro Forma 28 June 2022
Cash & cash equivalents	40.8 ²	122.7	163.5

SkyPoint	10.6 ³	-	10.6
Deferred tax assets	13.4 ⁴	-	13.4
Other assets	5.4	-	5.4
Assets held for sale (Main Event)	956.8	(956.8)	-
Assets	1,133.9	(834.1)	299.8
Payables and other liabilities	(26.8)	-	(26.8)
Derivative financial instruments	(32.9)	32.9	-

Net Assets	63.7	209.3	273.0
DTAs not recognised	51.7⁴	-	51.7

Key points to note:

- Adjustments reflect the impact of the Main Event sale, as well as the subsequent extinguishment of debt and distribution to shareholders
- \$40.8 million cash reported at 28 June 2022 includes receipt of a US\$20.4 million pre-sale dividend, net of 15% withholding tax (WHT)
- PP&E and intangibles for Dreamworld and SkyPoint are carried at historic cost, net of accumulated depreciation and impairments. Prior to the Dreamworld incident and COVID-19, the carrying value of these assets was \$240.7 million for Dreamworld and \$34.3 million for SkyPoint
- The value of deferred tax assets on the balance sheet excludes \$122.8 million of Australian tax losses and \$49.7 million of deductible temporary differences with a combined potential tax benefit of \$51.7 million. Although a DTA was not recognised for these items at 28 June 2022, they remain available for use by the Group in future periods
- The Pro Forma balance sheet does not include a receivable for Ardent's share of further deferred and contingent consideration on the Main Event sale of up to US\$14.5 million. This amount relates to the reimbursement for US tax losses which may be utilised by Dave and Buster's in the future, the timing and extent of which cannot be determined at this time
