

Quarterly Activities Report – 30 June 2025

Victory Metals (ASX:VTM) (Victory or the Company) is pleased to report on its activities and the Appendix 5B for the quarter ending 30 June 2025 (Quarter, Reporting Period).

Highlights:

- North Stanmore Project Mineral Resource Estimate (MRE) significantly enhanced with the inclusion of Gallium as a by-product
- Letter of Commitment from Sanabil Investments LLC, a wholly owned investment company of the Public Investment Fund (PIF) of Saudi Arabia, to provide a US\$10 million loan facility
- Letter of Intent received from the Export-Import Bank of the United States for up to US\$190 million (~A\$292 million) in project financing support for the development of the North Stanmore Project
- The North Stanmore Project features some of the highest metallurgical extraction rates reported for export restricted HREEs Tb 94%, Dy 87%, Lu 71% and Y 72%¹, highlighting its strategic position to become a potential producer of the HREEs subject to the new Chinese export restrictions
- \$4M Placement completed backed by VTM leadership, industry and Top 20 Shareholders
- Victory remains well funded with \$6.46M in cash at 30 June 2025 and \$624,000 of prepaid Preliminary Feasibility Study (PSF) expenditure

NORTH STANMORE HEAVY RARE EARTH ELEMENTS PROJECT

As one of the largest heavy rare earth clay projects globally, the North Stanmore Project (**North Stanmore** or **the Project**) presents a unique opportunity to establish a long-term, low-cost supply of critical minerals essential for high-growth industries including renewable energy, electric vehicles and defence.

North Stanmore is located in the Tier-1 mining jurisdiction of Western Australia, where both Federal and State Governments have committed billions of dollars of support for rare earth projects². The Project is strategically positioned to become a potential producer of heavy rare earth elements and critical minerals which are subject to export restrictions from China, including dysprosium, terbium and yttrium.

¹ Refer to ASX announcement dated 12th March 2025 titled "Outstanding North Stanmore Scoping Study Delivered"

Figure 1. Location of Victory Metals' North Stanmore Project

MAJOR ENHANCEMENT OF MRE WITH THE INCLUSION OF GALLIUM AS A BY-PRODUCT

In April, Victory unveiled a significant enhancement to its North Stanmore Project's Mineral Resource Estimate (**MRE**), with the inclusion of Gallium Oxide (**Ga₂O₃**).

The addition of Gallium further strengthens the Company's diversified critical minerals portfolio, positioning the Company as a potential dependable Western supplier of metals currently under tight global supply due to Chinese export restrictions.

Victory added **4,788 tonnes of Gallium Oxide** to its updated North Stanmore MRE, which now stands at **247.5 million dry metric tonnes at 520 ppm Total Rare Earth Oxide plus Gallium Oxide at 26 ppm (TREO + Sc₂O₃ + Ga₂O₃) (Inferred and Indicated)**.

Table 1: North Stanmore April 2025 MRE ($\geq 330\text{ppm}$ TREO + Sc_2O_3 cut-off grade)

CLASSIFICATION	MRE TONNES (t)	TREO (ppm)	HREO (ppm)	LREO (ppm)	HREO/TREO (%)	Sc_2O_3 (ppm)	Ga_2O_3 (ppm)
INDICATED	176,500,000	477	181	296	38	26	26
INFERRED	70,900,000	533	164	369	31	28	26
TOTAL	247,500,000	493	176	317	36	27	26

Numbers are rounded to reflect they are an estimate.

Numbers may not sum due to rounding.

The inclusion of Gallium in the MRE makes Victory is one of the few companies in Australia with a declared Gallium Oxide Mineral Resource, further positioning the Company as a globally relevant and potential diversified critical minerals supplier.

At North Stanmore, Gallium is recovered concurrently with Victory's Mixed Rare Earth Carbonate (**MREC**) with no additional processing required, making it a cost-effective by-product. The addition of Gallium enhances the value and strategic appeal of Victory's MREC, although the Company remains firmly focused on its high ratios of heavy rare earths as its core revenue drivers.

Gallium is a critical technology metal used in AI chips, semiconductors, quantum computing, defence systems, LEDs, and solar panels – with global supply tightly controlled, particularly by China.

North Stanmore includes several critical metals that are currently subject to Chinese export restrictions, all of these restricted critical metals have been recovered during testwork in Victory's Mixed Rare Earth Carbonate (**MREC**).

Figure 2. Critical Minerals contained within the North Stanmore MREC

Following Victory's announcement on 26 March 2025³ regarding the successful production of Gallium (Ga) in its final MREC product from North Stanmore, the Company commissioned MEC Pty

³ Refer to ASX Announcement dated 26th March 2025 titled "Gallium Produced in Final MREC Product"

Ltd (**MEC**) in April 2025 to update the January 2025 MRE to include Gallium oxide given the recent MREC Gallium recoveries.

The April 2025 MRE update was estimated within the boundaries of 10 tenements; E20/0544, E20/871, E20/971, E20/1016, E20/2468, E20/2469, P20/0543, P20/2007, P20/2153, and P20/2403, with all tenure held by Victory Cue Pty Ltd, a wholly owned subsidiary of Victory.

Figure 3. North Stanmore MRE by ResCat

Table 2 shows the HREO within the HGMIN domain by classification, and Table 3 shows the HREO within the MIN domain by classification.

Table 2: North Stanmore April 2025 MRE HREO within the HGMIN domain (≥ 330 ppm TREO + Sc_2O_3 cut-off grade)

CORPORATE

U.S. GOVERNMENT FUNDING LOI FOR US\$190M TO ADVANCE NORTH STANMORE

In April, Victory advised that it had received a Letter of Interest (LOI) from the Export-Import Bank of the United States (EXIM), for up to US\$190 million (~A\$292 million) in project financing support for the development of Victory's North Stanmore Project, marking a landmark moment in the Company's growth and establishes Victory as one of the few Australian critical minerals developers attracting high-level international government-backed support.

Highlights of the LOI include:

- Up to US\$190 million (~A\$292 million) in potential debt financing support
- Non-binding LOI with a 15-year indicative repayment term
- Opportunity to access further U.S. government financing through China and Transformational Exports Program (CTEP)
- Final financing commitment is subject to standard due diligence and must be compliant with EXIM policies as well as program, legal and eligibility requirements.

The LOI received from EXIM may also be eligible for special consideration under Section 402 of EXIM's 2019 re-authorisation (P.L. 116-94), which directs EXIM to take steps to mitigate the competitive impact of export support provided by the People's Republic of China and other covered countries for opportunities aimed at enhancing U.S. leadership in areas deemed critical to economic and national security, including rare earths and advanced materials.

\$4M PLACEMENT COMPLETED BACKED BY VTM MANAGEMENT AND TOP 20 SHAREHOLDERS

Victory raised \$4 million before costs in a strongly supported placement of new fully paid ordinary shares in the Company to professional and sophisticated investors, as well as directors and management of the Company, priced at \$0.73 per share, representing a 15% discount to the last traded price prior to the trading halt on 26 May 2025 of \$0.86 per share.

The Placement comprised the issue of 5,136,986 Placement Shares to professional and sophisticated investors (Investor Participation), and 342,466 Placement Shares to directors and management of the Company, subject to approval by the Company's shareholders (Director Participation). The Company will also issue 1,800,000 unlisted options with an exercise price of \$1.30 and a two-year exercise period (Placement Options) to unrelated parties under the Investor Participation.

US\$10 Million secured from Saudi Arabia's Sovereign Wealth Investment Arm

In June, Victory announced it had received a Letter of Commitment from Sanabil Investments LLC, a globally respected sovereign investment firm which is wholly owned by the Public Investment Fund (PIF) of the Kingdom of Saudi Arabia, to provide a US\$10 million loan facility.

Highlights of the Letter of Commitment include:

- Sanabil Investments, a wholly owned investment company of the PIF of Saudi Arabia
- Unsecured, US\$10 million loan facility with a 2-year moratorium on interest payments and a 3.9% interest rate over the remaining term
- Sanabil has requested the first right to provide future funding for A\$330 million for the development and construction of the processing plant

- Funds to be used for general corporate purposes, including exploration, capital, operating, and development expenditure to fast-track North Stanmore Project
- Sanabil deploys US\$3 billion annually into high impact companies and projects worldwide
- Funding strongly aligned with Saudi Arabia's Vision 2030, which prioritises economic diversification and downstream investment in critical minerals and rare earth processing

Victory is working with Sanabil to complete full form loan documentation before funds are remitted.

CASHFLOWS FOR THE QUARTER

Attached to this report is the Appendix 5B containing the Company's cash flow statement for the quarter. Exploration expenditure of \$1.425m (which includes a \$624K PFS prepayment) expenditure mainly related to exploration and development activities undertaken at North Stanmore REE Project net of GST refunds received on current and previous exploration expenditure. \$504k expenditure net of GST refunds received on current and previous administration expenditure and corporate costs of which \$117k were payments made to related parties. These payments relate to the remuneration agreements for Executive and Non-Executive Directors and to SmallCap Corporate Pty Ltd (**SmallCap**) for providing company secretary, accounting and office services to the Company. Non-Executive Chairman James Bahen is a shareholder and director of SmallCap.

- **As at 30 June 2025, the Company had available cash of approximately \$6.46M and \$624,000 of prepaid PSF expenditure**

June 2025 Quarter – ASX Announcements

This Quarterly Activities Report contains information extracted from ASX market announcements reported in accordance with the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (2012 JORC Code). Further details (including 2012 JORC Code reporting tables where applicable) of exploration results referred to in this Quarterly Activities Report can be found in the following announcements lodged on the ASX:

24/06/2025	US\$10M Secured from KSA Sovereign Wealth Investment Arm
28/05/2025	\$4M Placement Backed by Leadership, Industry and Top 20

Victory Metals Limited: Company Profile

Victory is dedicated to the exploration and development of its flagship North Stanmore Heavy Rare Earth Elements (HREE), Scandium, Gallium and Hafnium Project, located in the Cue Region of Western Australia. The Company is committed to advancing this world-class project to unlock its significant potential.

Competent Person Statement

Professor Ken Collerson

Statements contained in this report relating to exploration results, Mineral Resource Estimate, scientific evaluation, and potential, are based on information compiled and evaluated by Professor Ken Collerson. Professor Collerson (PhD) Principal of KDC Consulting, and a Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM - membership number 100125), is a geochemist/geologist with sufficient relevant experience in relation to rare earth element and critical metal mineralisation being reported on, to qualify as a Competent Person as defined in the Australian Code for Reporting of Identified Mineral resources and Ore reserves (JORC Code 2012). Professor Collerson consents to the use of this information in this report in the form and context in which it appears.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements in relation to the exploration results. The Company confirms that the form and context in which the competent person's findings have not been materially modified from the original announcement.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
